# Climate Change Framework

**Now**

**+1°C warming above  
pre-industrial levels**

**119 Mt greenhouse gas emissions**

**2050**

**Resilient to +1.5°C or more  
warming above pre-industrial levels**

**Net zero greenhouse gas emissions**

## The four pillars for emissions reduction

**Increase our  
energy efficiency  
and productivity**

**Move to a clean  
electricity supply**

**Electrify our economy  
and switch to  
clean fuels**

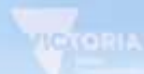

**Reduce non-energy  
emissions and increase  
carbon storage**

# Leadership on Climate Change

TAKE2

Working together, we pledge to play our part  
and take action on climate change for Victoria,  
our country and our planet
