**8% GREEN SPACE**

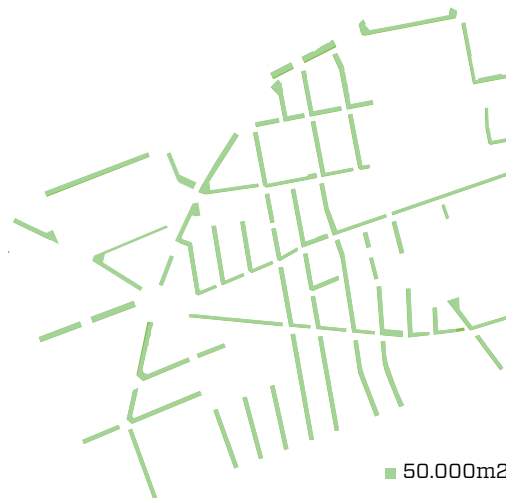

### 270.000 m<sup>2</sup>

Er vejarealet i Skt. Kjelds Kvarter i dag. Gaderne er langt bredere, end nødvendigt for at kunne håndtere den lokale trafik.

### 50.000 m<sup>2</sup>

Grønt areal kan vi skabe, hvis vi indretter gaderne efter gældende standarder - med trafik i begge retninger og samme antal parkeringspladser.

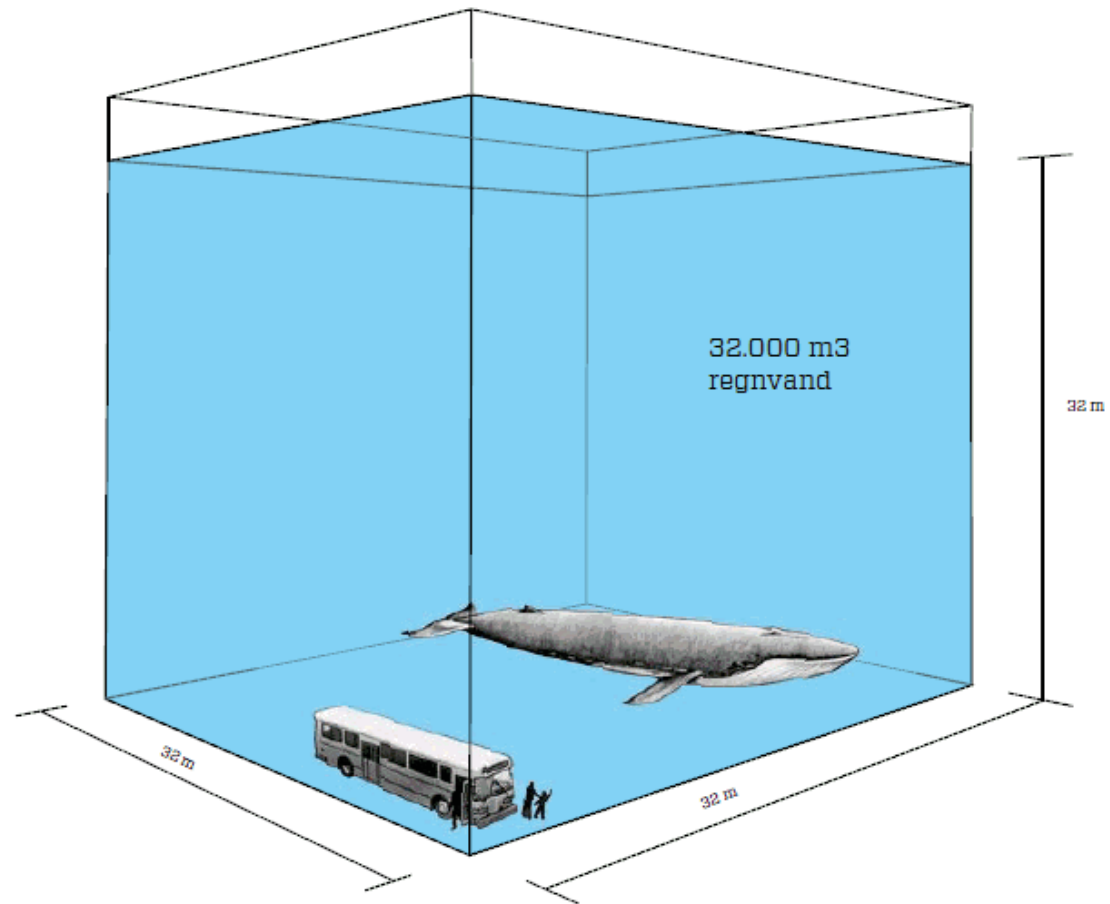

### Bedre byliv

På den måde skaber vi plads til grønne korridorer, vejtræer, forhaver og blomstrende byrum. Uden at det koster en p-plads.
