Review of resilience target of SDG11.b and Sendai Framework through carbonn Climate Registry

Manuel Araujo

Mayor, Quelimane, Mozambique

Vice-President, ICLEI Africa Regional Executive Committee

Member of ICLEI Global Executive Committee, Resilience and Adaptation Portfolio Seat

Global resilience targets

- **Sendai Framework**

- (e) Substantially increase the number of countries with national and local disaster risk reduction strategies **by 2020**.

- **SDG11.b**

- **By 2020**, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels

Local disaster risk reduction strategy
(ICLEI interpretation)

=

Climate Resilience/Adaptation

+

Other natural disasters (e.g. earthquakes)

+

Human-induced disasters

Climate resilience and adaptation reporting at the carbonn Climate Registry

155

cities and regions reported their climate adaptation or integrated **plans** (as completed or in progress)

~ 15%

of all cities and regions reporting at carbonn Climate Registry

217

cities using CRAFT tool to report their climate **hazards and risks** to comply with the Global Covenant of Mayors

2000+

Adaptation-relevant actions reported

70%

Adaptation-relevant actions are financed locally

If appropriate resources are generated, ICLEI is committed to support these 155+ cities and regions reporting climate resilience and adaptation plans to make sure that other disaster risk reduction information is complied and reported by the SDG11 and Sendai deadline of 2020
